The school management solution you've been waiting for

TUIO

It's that easy.

Meet your new School Management System

TUIO is an all-in-one online school management solution that allows your school or childcare facility to automate administrative tasks, streamline enrollment and tuition payments, and digitize student information records.

Our mission is to help you reduce costs and save time by:

- ✓ Seamlessly integrating admissions, payment, and student record systems.
- ✓ Eliminating simple administrative tasks and paper waste.
- ✓ Allowing parents to manage tuition, registration and student information digitally, themselves.
- ✓ Simplifying the overall enrollment experience for everyone.

Why Choose Us

TUIO combines ease of use, affordability, and superior customer support, to fully deliver a seamless experience for your childcare organization and its families. Our integrated online platform includes:

A user-friendly, intuitive interface

Our modern interface makes it simple for both staff and parents to easily grasp the solutions that fit their individual needs.

Premium customer service

We strive to provide one-on-one, live support for staff, and even parents at no extra charge. Yes, that's real humans in real time!

Flexible payment plans

We offer flexible and affordable monthly payment options, and with our short-term contracts your school can try out TUIO without pressure to commit.

Added subscription benefits

When you join TUIO, you automatically gain access to up-to-date industry information, software updates, valuable tips to optimize your TUIO experience, and exciting promotional offers.

Commitment to innovation

We continuously gather feedback from our customers to help identify and develop features and updates that improve your TUIO experience.

TUIO's 3 Essential Features

Our aim at TUIO is to increase efficiencies in administrative tasks to free up your time to engage with parents and students.

Our 3 essential software features are designed to do just that.

Automate tasks, customize forms, and store your data all in one place.

Tuition Management System (TMS)

Our online TMS feature is easy to use and handles all the administrative tasks of tuition management for you. This feature allows your school to:

- ✓ Easily send invoices
- ✓ Create payment plans
- ✓ Manage account receivables and issue tax receipts
- ✓ Automate collections
- ✓ Report on transactions through a user-friendly interface

Enrollment Management System (EMS)

TUIO's intuitive EMS fast-tracks enrollment processes for parents and staff at the click of a mouse. You can use this feature to:

- ✓ Create customized enrollment forms & digital waitlists
- ✓ Generate digital registration links and allow self-serve registration
- ✓ Enable and review online registrations
- ✓ Set up automatic enrollment
- ✓ Collect admissions fees and deposits digitally

Student Information System (SIS)

Our integrated SIS allows your school to digitally store enrollment data, upload and organize student records, and export the information for list-making purposes. The SIS feature can be used to:

- ✓ Store student information in one safe and easy-to-access space
- ✓ Generate custom fields for student profiles and collect accurate data
- ✓ Export student information and automatically generate lists

I am saving so much time now that TUIO has automated the entire process and made my work life 98% better! Look no further—you have found the school management system you were looking for.
